# WARHEAD

1/8 SCALE READY-TO-RUN  
4WD NITRO MONSTER TRUCK

The Warhead is truly an aggressive approach to monster truck design, because the Warhead excels at racing AND tackles tough off-road action better than any competitor...it's two top-of-the-line trucks in one! And best of all, it's completely assembled and Ready-To-Run right out of the box. The Warhead comes complete with a 3-channel radio and huge .27-size racing engine made by SuperTigre. With its unique features and combination of insane speeds and unstoppable power, the Warhead declares war on the monster truck competition!

### UNMATCHED ADJUSTABILITY

- Adjustable Steering Ackerman
- Adjustable Front and Rear Toe-In

PROTECTED BY  
**STRESS-TECH**  
GUARANTEE **1** YEAR

**CUSTOM MULTI-COLOR BODY!**  
Choose from 6 exciting colors.

In Race Mode, the Warhead's ground clearance can be lowered for outstanding stability.

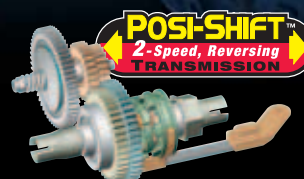

In Rumble Mode, more ground clearance means fewer hang-ups.

**3-Channel Radio**  
by **Futaba®**

Features third channel for shifting into forward or reverse!

Easily shift from Forward to Reverse using the transmitter. The 2-speed automatically shifts from low to high gear.  
■ Positive Lock engagement  
■ Durable Steel Gears

High Performance Race Engine designed specifically for the Warhead.

- Machined aluminum racing head
- Dual-needle slide valve carb
- True ABC construction
- Dual ball bearings
- Pull start
- 3 year warranty

### HIGH PERFORMANCE FEATURES:

- 7075 Aluminum Side Plates
- 8 Rapid Tune™ Aluminum Oil Shocks
- Complete Bearing Set
- Fully Adjustable Suspension
- Shaft Driven 4-wheel Drive
- Metal Gear Differentials
- SX-200 Heavy Duty Metal Geared Steering Servo - 124 oz-in Of Torque!
- Heavy Duty CV Driveshafts
- Adjustable Slipper Clutch
- Dual Composite Disk Brakes
- Steel Turnbuckles
- Enclosed Radio Box
- Huge Oversized Fuel Tank
- Aluminum Racing Tuned Pipe
- Adjustable Steering Ackerman
- Adjustable Front and Rear Toe-in
- Adjustable Body Mounts
- Aluminum Carrying Handle
- Starter Box Compatible

**Ready-To-Run...on nitro fuel!**

# NITRO EVADER<sup>ST</sup>

1:10 Scale RTR RIC 2WD Nitro Stadium Truck

**Includes Radio by Futaba.**

INCLUDES 8 "AA" BATTERIES!

## Quality Performance Features!

- 7075 T6 anodized aluminum chassis
- Adjustable ball diff
- Hard anodized slipper clutch
- Rapid-Tune™ aluminum oil-filled shocks
- Power-boosting tuned pipe
- Steel turnbuckles
- Constant Velocity (CV) drive shafts
- Composite disk brake
- Complete ball bearings — 16 total

## Custom Multi-Color Body

Choose from 6 different multi-color bodies keyed to each radio frequency.

**A fire-breathing RTR buggy!**

# NITRO EVADER<sup>BX</sup>

1:10 Scale RTR RIC 2WD Nitro Buggy

## Custom Multi-Color Body

Choose from 6 different multi-color bodies keyed to each radio frequency.

If the roaring realism of nitro power gets you fired up, then get the buggy that will have you blazing your own off-road trails in a blink of an eye...the Nitro Evader BX! Everything — from assembly to painting to installation of all on-board gear — has already been done; you just add fuel and GO! And no corners have been cut for the sake of convenience: the engine is made by O.S.®, and the radio system comes from Futaba®...with batteries included. Plus, a FREE video, fuel bottle and glow starter with battery are also supplied — the Nitro Evader BX has it all covered!

Legendary Evader toughness is still here, so feel free to let 'er rip. And the upgrades normally found only on top-notch racing machines? You'll find that lots of them are standard equipment on the Nitro Evader BX. That means you'll not only start racing from day one — you'll start winning too!

**Includes Radio by Futaba.**

INCLUDES 8 "AA" BATTERIES!

## Quality Performance Features!

## MINI QUAKE™

Prepare to be  
**ALL SHOOK UP!**

1/18 SCALE

**Ready-to-Run 1/18 scale Electric 4WD Monster Truck**

The 4WD Mini Quake may look small, but it's as well equipped as any 1/10 scale RTR you'll ever see. At less than 10" long, it can deliver monster truck thrills in places where bigger monsters can't go - and performance that other mini monsters just can't match. It's due to more than the factory-assembled chassis and painted body. It goes beyond what's added by the radio, motor, ESC, NiCd battery and charger. It comes from all of those things, plus built-in hop-ups that boost performance while leaving affordability intact!

**600mAh NiCd battery & charger**

Two more accessories that you don't have to buy separately — another Mini Quake bonus!

**ESC5000 Micro Electronic Speed Control w/Reverse**

- Shaft Driven 4WD
- Durable Gear Differentials
- Telescoping Universal Drives
- Aluminum Chassis Brace
- 8 Oil-Filled Shocks
- Independent Suspension
- Adjustable Motor Mount
- Complete Bearing Set

## Nitro Accessories

### Failsafe Unit

Prevents "runaway" vehicles by returning the engine to user-set idle position. Provides protection during loss of radio frequency or low receiver battery voltage. Features easy, one-step push button setup and works with Futaba, Air Z, Hitec, and JR. DTXM4000

### Alkaline Glow Starters

Powered by replaceable alkaline cells (not included), these starters offer more capacity than NiCd's, at a lower price — along with the convenience of not needing to be charged overnight before use.

DTXP0300 Glow Starter C Battery  
DTXP0305 Glow Starter D Battery

### Rapid Heat™ Glo-Starter w/Charger

Rapid Heat's 1500mAh Sanyo® NiCd sends power to a 1-3/4" socket with Twist-and-Lock tip. Place it over a glow plug, twist, and you've got a vibration-resistant electrical circuit linking NiCd and glow plug. Includes 110V AC overnight charger. DTXP3000

### Ultimate Glow Starters

Ultimate Glo-Starters include a 110V AC wall charger and rechargeable NiCd (C or D size), but also accept alkaline batteries. The proven Twist-and-Lock head keeps your starter securely attached.

DTXP0310 Ultimate Glow Starter C Battery  
DTXP0315 Ultimate Glow Starter D Battery

### Power Pak for Traxxas® EZ-Start™

Save time and money with this all-in-one battery/charger Power Pak designed for the Traxxas EZ-Start system. It includes a 1000mAh 6-cell flat NiCd pack and 9V wall charger. DTXP4605

### Hi Flow Air Filter .10-.15

Installed over the carburetor of your .10-.15 engine, this single-stage filter locks out damaging dirt and dust.

DTXG2612 Hi Flow Air Filter .10-.12  
DTXG2615 Replacement Elements (2)

### Clutch Belts

Durable, hardened steel construction provides precise gear mesh for 1/8 models. Machined front and rear for ball bearings, available separately.

DTXC2521 Clutch Bell 13T  
DTXC2522 Clutch Bell 14T  
DTXC2523 Clutch Bell 15T  
DTXC2524 Clutch Bell 16T  
DTXC2525 Clutch Bell 17T  
DTXC2526 Clutch Bell 18T

### Tuned Pipes

Easy to install tuned pipes boost mid- and top-end torque for more head-grabbing GO. Both include pressure fitting and require header and coupler.

DTXG1000 Tuned Pipe for .21  
DTXG1010 Tuned Pipe for .10-.15

### FlashPoint™ Infrared Temperature Gauge

Just point and push! The compact and lightweight FlashPoint measures temperature levels anywhere, with an infrared sensor that makes it incredibly fast and easy to monitor accurate heat levels without direct contact. And besides nitro engines, the FlashPoint can be used to check the temperature of electric motors and battery packs. DTXP3100

**COMPLETELY WIRELESS!**

Monitor operating temperatures to help prolong the life of your engine.

### Clean-Flow™ Fuel Filter

The blue-anodized, machined aluminum Clean-Flow in-line fuel filter allows unrestricted fuel flow while preventing debris from reaching your engine. It features a fine-mesh nylon micron screen and O-ring seal to prevent leaks. For glow fuel only. DTXC2551

### Air Filter Oil

Air Filter Oil increases foam element filter capacity and helps put a halt to premature engine failure. Just apply a small amount to the element and squeeze out the excess. 3 oz. bottle. DTXC2465

### Glow Plugs

Ideal for use in all R/C car engines, hand-assembled DuraTrax Glow Plugs are color-coded for easy identification and equipped with solid-metal coils that resist meltdown. **Silver Sport** is a hot plug for low-nitro applications. **Carbon Speed** is a medium-heat plug for informal racing and sport driving. **Cold Gold Racing** plug keeps its cool in competition, even with high-nitro fuels. LR3 is designed specifically for the Traxxas TRX 2.5.

DTXG3001 Silver Sport Glow Plug  
DTXG3003 Carbon Speed Glow Plug  
DTXG3005 Gold Racing Glow Plug  
DTXG3010 LR3 Long Reach Plug  
Designed for TRX 2.5

### O.S.® Engine Accessories

Stage II Performance Heads in blue, black or purple let you "customize" your O.S. .12 or .15 engine while improving cooling and enjoying more race-winning horsepower - thanks to a modified combustion chamber. **ABC Sleeve/Piston** is an optional cylinder sleeve and piston assembly with true ABC construction for long-lasting compression fit.

DTXG1510 CZ .12 Stage II Head - Black  
DTXG1511 CZ .12 Stage II Head - Blue  
DTXG1512 CZ .12 Stage II Head - Purple  
DTXG1516 CZ .15 Stage II Head - Black  
DTXG1517 CZ .15 Stage II Head - Blue  
DTXG1518 CZ .15 Stage II Head - Purple  
DTXG1520 ABC Sleeve/Piston .12 CV, CZ, LD  
DTXG1522 ABC Sleeve/Piston .15 CV

## Fuel and Starter Boxes

### O'Donnell Racing Fuel

O'Donnell Racing Fuel is blended from the highest-grade methanol and nitromethane, linked with an exclusive lubricant package developed for racing engines with very exact tolerances. It offers superior performance and reliability — while reducing critical heat and internal engine wear. Precise blending ensures consistent quality.

DTXP0420 10% Racing Quart  
DTXP0430 20% Racing Quart  
DTXP0432 30% Racing Quart  
DTXP0436 40% Racing Quart

### Starter Boxes

Start glow engines with ease! 1/10 Scale Universal Starter Box adapts to "sidewinder" engine layouts and virtually any 1/10 scale car or truck. Included, dual 550-size motors deliver starting power for .12 to .18 engines. Connectors are in place for internal installation of a required 12V battery or two 6-cell NiCd packs. The 1/10 Scale Starter Box with Power Panel is the same as above but also includes a power panel, 12V gel cell battery, and glow starter clip. The 1/10 Scale Touring Car Starter Box is for 1/10 4WD touring cars and 1/8 scale on-road cars. It features a ball bearing-assisted belt drive system, powered by a heavy-duty 750 motor and includes leads and alligator clips for 12V operation. For even more muscle, the Universal II 1/8 Starter Box includes a single 770 motor.

## Battery Packs

### Shark™ 1500 6C Sport Pack

An awesome sport pack! Delivers 7.2V of power for backyard bashers, with 1500mAh of run-time capacity. Quality construction features include quad welds on all cell/tab connections, reinforced tubes, 14-gauge silicone wire and standard connector. DTXC2030

### Piranha™ 1500 SCX Packs

High-quality cells; 4 spot welds on each connection; 14 gauge, 200+ strand wire; shotgun synthetic reinforcement tubes...it all adds up to maximum durability and power, with the extra-long run times of 1500mAh capacity!

DTXC2100 Piranha 1500 6-Cell Flat  
DTXC2102 Piranha 1500 6-Cell Hump  
DTXC2110 Piranha 1500 7-Cell Flat  
DTXC2112 Piranha 1500 7-Cell Hump

### Piranha™ 1900 SCX Packs

Treat yourself to 20% longer run time than 1500mAh packs provide...and enjoy the convenience of being able to run and recharge several times in the same day!

DTXC2020 Piranha 1900 6-Cell Flat  
DTXC2021 Piranha 1900 7-Cell Flat  
DTXC2022 Piranha 1900 7-Cell Hump

### Sanyo® 1500 Packs

These 1500mAh packs feature powerful, high-capacity, genuine Sanyo cells. Ideal for both sport and racing uses, with the quality and reliability of the world's best cell maker.

DTXC2065 Sanyo 1500 6-Cell Flat  
DTXC2066 Sanyo 1500 7-Cell Flat  
DTXC2067 Sanyo 1500 7-Cell Hump

### Sanyo® 1900SCR Packs

Great cells at a great price! The label says 1900mAh, but these packs typically offer almost 2000mAh of run time. Plus, their low internal resistance translates to more "hole shot" punch and off-the-line acceleration!

DTXC2130 Sanyo 1900SCR 6-Cell Flat  
DTXC2131 Sanyo 1900SCR 7-Cell Flat

### Sanyo® RC-2400 Packs

Advances in NiCd technology make for the highest capacity NiCd available today, for longer run times...without burdening your machine with extra weight!

DTXC2081 Sanyo 2400 6-Cell Flat  
DTXC2082 Sanyo 2400 7-Cell Flat  
DTXC2083 Sanyo 2400 7-Cell Hump

### 6V 1100mAh 2/3A NiMH Receiver Packs

These lightweight NiMH receiver packs are made with high energy density cells, and come in a wide variety of configurations for all your racing needs.

DTXM2010 6V 1100mAh NiMH Rx Std Gas Hump  
DTXM2015 6V 1100mAh NiMH Rx 1/8 Scale Flat

## IntelliPeak™

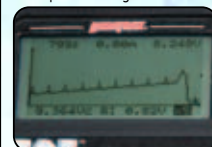

# ICE

Competition Charger,  
Discharger and Cycler

NiCd  
+ LITHIUM

IntelliPeak Ice meets the special charging needs of experienced electric car, truck and boat modelers, offering the ideal charge rates...the flexibility to handle multiple battery types...four charge modes (linear, reflex, impulse and "four-step")...plus uniquely easy operation and numerous programming options. It's a great value — and a must for serious drivers who demand the best! DTXP4170

The large LCD screen shows 8 lines of data and 21 characters per line, allowing more information to be viewed without scrolling. That makes menus and controls extra-simple to use — and keeps battery condition updates, charge problem warnings and other important messages easy to read. It also displays charge and discharge voltage graphs!

Its ability to break-in electric motors or operate commutator lathes is another IntelliPeak Ice feature that distinguishes it as the "racer's choice" among chargers. For motor break-in, it offers 1.0-8.0V adjustable output; time adjustable from 1-180 minutes; and 10A constant current (30A surge).

With its advanced technology, intuitive menus, and simple pushbutton and dial operation, the Ice combines enormous functionality with remarkable ease of use. Four charge modes — linear, reflex, impulse, and 4-step — plus optional battery temperature monitoring truly make Ice the choice for serious-minded racers.

### FEATURES:

- Handles 1-10 NiCd or NiMH cells, and 1-4 lithium-ion (Li-Ion) or lithium-polymer (Li-Po) cells.
- Wide adjustable current ranges for fast-charge (0.1-8.0A) and discharge (0.1-10.0A) are ideal for electric cars, trucks and boats.
- Displays graphs which show charge and discharge voltage curves.
- Performs 1-10 cycles (NiCd and NiMH only) — retrieves data for 10 full cycles.
- Program up to 10 batteries in memory by custom names for easy recall and charger set-up.

### ADDITIONAL SPECIFICATIONS:

#### INPUT VOLTAGE:

11-15V DC

**TYPES, # OF CELLS:** 1-10 Nickel-Cadmium cells (1.2-12.0V NiCd), 1-10 Nickel-Metal Hydride cells (1.2-12.0V NiMH), 1-4 Lithium-Ion or Lithium-Polymer cells (3.6-14.8V Li-Ion/Li-Po)

#### BATTERY CAPACITY RANGE:

100-9900mAh

#### FAST CHARGE CURRENT:

0.1-8.0A linear, reflex, impulse and 4-step

#### FAST CHARGE TERMINATION:

Peak detection for NiCd and NiMH  
"constant current / constant voltage" for Li-Ion / Li-Po, optional thermal cutoff for all battery types

#### PEAK SENSITIVITY:

0-25mV adjustable

#### TRICKLE CHARGE CURRENT:

0-500mA (n/a for Li-Ion / Li-Po)

#### DISCHARGE CURRENT:

0.1-10.0A adjustable

#### DISCHARGE CUT-OFF VOLTAGE:

0.8-1.1V per cell NiCd & NiMH

2.5-3.7V per cell Li-Ion/Li-Po

#### TEMPERATURE CUT-OFF RANGE:

50-132 degrees F

#### CYCLE COUNT:

one to ten cycles (n/a for Li-Ion/Li-Po)

#### CYCLE COOLOFF DELAY:

1-30 minutes adjustable

#### OUTPUT CONNECTORS:

Banana jacks

## DURATRAX™ 20 AMP DISCHARGER

Discharge up to six individual sub-C NiCd or NiMH cells at up to 20 amps! Unique lever-lock handles and spring-loaded contacts make cell insertion and removal fast and easy. Status lights indicate each cell's condition. The built-in cooling fan can be powered by load cells or an external DC power supply (not included). DTXP4320

Duratrax  
20 AMP DISCHARGER  
1 YEAR WARRANTY  
U.S.A. and Canada only

**The Racer's Choice  
for FAST Discharging!**

NiCd

# IntelliPeak™

## PULSE CHARGERS

**Affordable. Easy to use.**  
**NiMH and NiCd compatible!**

Better equipped than "sport" chargers but less costly than high-end battery management systems, IntelliPeak Chargers are solid values now — and smart investments toward future charging needs.

### All IntelliPeak Chargers feature:

- Peak charging for NiCd and NiMH battery packs.
- Advanced "fuzzy logic" microprocessor to eliminate false peaks.
- AC/DC compatibility (DC-only versions also available for several models).
- High-efficiency, pulsed-current fast charging.
- Automatic switch from peak charge to trickle charge.
- Reverse polarity, thermal and overload protection.
- Charge lead with standard connector.

### All except Twin Pulse Charger also feature:

- Single-button set-up.
- 4-7 cell charging capacity on DC power — 4-8 cell capacity on AC power (for AC-equipped chargers).
- 4 setup/status LEDs.
- 100mA trickle charging.
- Two cycling modes: single-cycle, for periodic pack conditioning, and non-style cycling for deep pack conditioning.
- Adjustable fast-charge current rates.

**IntelliPeak AC/DC Pulse Charger** (DTXP4100)

Easy to use, yet sophisticated in operation. Charges at 0.5 to 6.5A rates and discharges at 1A. Includes built-in AC power supply.

**IntelliPeak AC/DC Digital Pulse Charger** (DTXP4130)

To the features of the Deluxe, the Digital adds a large, bright LCD screen for monitoring pack progress. A flip of the selector switch can bring up charge current, charge voltage, pack capacity in mAh — or all three — in seconds.

**IntelliPeak AC/DC Mini Pulse Charger** (DTXP4110)

Fan-cooled DC peak charger weighs less than half a pound. Combine it with the included, detachable Compact Switching Power Supply and it still weighs under a pound! Charge rates adjust from 1.0A to 4.5A. 2A discharging makes the Mini the lightest cycling unit around. DC-Only Version (DTXP4109) does not include Compact Switching Power Supply.

**IntelliPeak AC/DC Twin Pulse Charger** (DTXP4150)

The Twin is actually two independent peak chargers in one. Packs can be started alone, together, or one after another! Both offer 3.5A charge rates for 6-7 cell, sub-C packs — and Circuit #1 also offers a 1A charge rate for 8-cell Tx packs. Its twin LEDs glow during peak charging, but flash when the Twin automatically switches to trickle charge. Trickle rates are 100mA for 6-7 cell packs and 50mA for 8-cell packs. A built-in AC power supply and fan offer convenience and cooling with ease. Includes Futaba Transmitter Charge Adapter.

### Adapters

DTXP4151 Futaba TX Adapter  
 DTXP4152 Airtronics/Hitec TX Adapter  
 DTXP4153 JR TX Adapter

### Compact Switching Power Supply

(DTXP4300)

Measuring just 3.9" x 2.75" x 2.5", the Compact Switching Power Supply plugs into any AC outlet and delivers 7A of "clean" 12V DC power. Solid-state components and a high-frequency (22kHz) design eliminate bulky transformers. Includes cooling fan, fuse protection, and 4-foot extension cord with terminal block adapter.

**IntelliPeak AC/DC Deluxe Pulse Charger** (DTXP4120)

Deluxe with Compact Switching Power Supply detects cell chemistry, automatically selecting either "Negative Delta V" charging for NiCds or "Zero Delta V" for NiMHs. Charge rates with both methods are the same — 0.5-6.5A — and discharging can be set at 2A or 10A rates. Twin, built-in fans keep the Deluxe extra cool during operation. DC-Only Version (DTXP4119) does not include Compact Switching Power Supply.

# IntelliSpeed™

## ELECTRONIC SPEED CONTROLS

**Great values and smart choices in speed controls!**

### All IntelliSpeed ESCs offer:

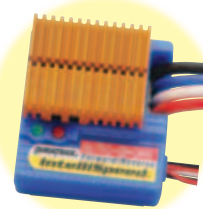

- 6-7 cell input
- Proportional forward
- Brake
- Push-button set up ease\*
- Programmable functions\*
- Twin set up LEDs
- Traction control
- Weight-saving BEC
- Cool-running, high-frequency design
- Thermal protection
- 180-day warranty

\*except DTXM1055

**AUTO-SPORT FORWARD w/BRAKE** (DTXM1055)

Powerful enough for motors down to 20 turns! Simple to set up and ideal for stock racing and sport drivers.

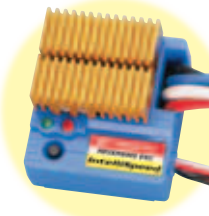

**AUTO-SPORT FORWARD/REVERSE** (DTXM1059)

The Auto-Sport Forward/Reverse features fully proportional forward and REVERSE, in addition to ABS braking — with the same easy set-up as the original Auto-Sport.

**16T MILD-MODIFIED REVERSIBLE** (DTXM1065)  
 Reverse and ABS brakes are options, and traction control and reverse delay are programmable. For motors with no fewer than 16 turns.

**12T MODIFIED REVERSIBLE** (DTXM1070)  
 Includes 16T features, but a wider motor and application range. For motors with no fewer than 12 turns.

**8T RACING REVERSIBLE** (DTXM1075)  
 Offers the lowest on-resistance and widest motor range of any IntelliSpeed reversible. For motors with no fewer than 8 turns.

**8T PRO RACING FORWARD** (DTXM1080)  
 Fully programmable for custom racing! Includes 6V/3A BEC motor and battery solder posts as more. For motors with no fewer than 8 turns.

## Piranha Chargers

# PIRANHA™

**Get more than you pay for... with Piranha chargers.**

Piranha chargers offer affordability, versatility and confidence. Fuse-protected AC input, DC input protected against reverse polarity, and a durable, double-vented ABS case contribute to dependable operation and long life.

CX Series timed chargers meet the needs of 6-7 cell, 1300-2000mAh NiCd batteries. The CX-10 Fast Charger fast-charges at 2.5A. The CX-15 Fast Charger With Meter adds an easy-to-read ammeter and choice of charge or discharge cycles. 5-year warranty for both.

The Piranha Peak Power Charger peaks 6-7 cell, 1200-2000mAh sub-C NiCds at rates up to 4.5A and switches to 50-300mA auto-trickle at peak.

Piranha Peak Power AC/DC Charger (DTXP4000)

Piranha CX-10 Fast AC/DC Charger (DTXP4011)

Piranha CX-15 Fast AC/DC Charger with Meter (DTXP4020)

### Piranha™ DC Peak Charger (DTXP4002)

**An incredible value in peak charging!**

**Charges 6- or 7-cell packs, both NiCd AND NiMH batteries.**

For cost-conscious car modelers who want the advantages of peak charging, the Piranha DC Peak Charger is the answer! It'll charge 6- or 7-cell NiMH or NiCd battery packs with a push of a button. Includes twin charge LEDs. It's very compact, lightweight, easy to transport and use.

#### Specifications:

Input Voltage	11-15V DC
Number of Cells	6 or 7 NiCd or NiMH
Battery Capacity	1200-3600 mAh
Fast Charge Current	4.0 amps fixed
Fast Charge Termination	-deltaV peak detection
Trickle Charge Current	50mA

**Maximum Capacity Peak Charging!**

**NiMH NiCd™**

**5 YEAR WARRANTY**  
(USA and Canada only)

### Piranha™ Digital Peak Charger (DTXP4005)

**Powerful, programmable peak charging — anywhere!**

Easy programming. Microprocessor-controlled intelligence and reliability. The convenience of AC/DC input, and the versatility to handle a wide variety of charging needs. It's all available in the Piranha Digital Peak Charger — the most charger so little money can buy.

Its six programmable features let you tailor operation for the best results with your specific battery types. Programming is a snap, because the 16-character LCD is more detailed and advanced than those of any comparable charger. Store pre-set charge parameters in memory for up to 10 different cells or packs.

Smart design allows you to keep track of charge progress and warns of errors along the way such as improper input voltage, poor battery connections, or reverse output polarity. 1-year warranty.

**SIX Programmable Features!**

**NiMH NiCd™**

## Strong stuff from DuraTrax for a hotter, meaner Maxx!

### Some facts about your Maxx:

Tough as it is, you can make it even tougher. Just replace the stock plastic parts with direct-fit, all-metal upgrades from DuraTrax.

DuraTrax options for the Traxxas® T-Maxx™ and E-Maxx™ are machined from rugged 7075 or 6061 T-6 aluminum, and all mounting hardware is included. They're your ticket to better performance and greater endurance!

#### Work Stands

- Powder-coated machined aluminum construction.
- Adjustable nylon hold-downs fold back when not in use.
- Engine head and fuel tank cut-outs allow models to lie flush when inverted.
- Rubber pads protect your finish.
- Store glow plugs and tools in 7 rubber-lined holes.

DTXC2365 Work Stand Silver  
DTXC2366 Work Stand Blue  
DTXC2367 Work Stand Purple

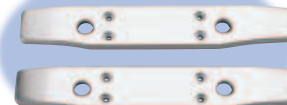

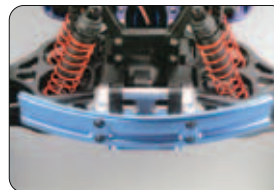

#### Skid Sets

- Skid Sets fully cover the driveshafts and transmission for maximum protection from dirt and debris.
- Center Skid Plate interlocks with the Front and Rear Plates for a strong, smooth connection that prevents hang-ups.

DTXC2573 Skid Plate Set F/R Purple

#### Bumpers

- Bolt onto either T-Maxx or E-Maxx without modifications to replace stock plastic bumpers.
- Made of super-strong aluminum.
- One-piece machined construction resists bending.
- Sets include both front and rear bumpers plus hardware — a better value than bumpers sold separately.

# DuraTrax Tools & Accessories

## Engine Tuning Screwdriver (DTXR0185)

Adjust high-/low-speed needles and throttle stop screws with a single tool — 120mm hardened steel shaft and 3.2mm wide magnetized tip.

## Engine Tuning Tool (DTXR0187)

Handles needle and throttle stop screw adjustments, stores a spare glow plug (not included) AND features a piston locking tool!

## Crankshaft Locking Tool (DTXR1100)

Threaded like standard glow plugs — locks engine piston and crankshaft for easy clutch removal/installation.

## Tool Sets

Metric and SAE Car Precision Tool Sets each include 10 tools. Rubberized handles provide increased control. Standard Screwdriver Set includes 2 slotted and 3 Phillips screwdrivers. All three tool sets come in a roll-up pouch.

DTXR0140 Standard Screwdriver Set  
DTXR0375 Precision Car Tool Set Metric  
DTXR0380 Precision Car Tool Set SAE

## Car Wrenches

Chromed, cast metal Deluxe includes 6 socket head sizes and stores up to 4 glow plugs. Ultimate adds combination slotted/Phillips screwdriver bit and 19mm socket for 1/8 car wheel nuts.

DTXR1170 Deluxe Car Wrench  
DTXR1175 Ultimate Car Wrench

## Ultimate Body Reamer (DTXR1157)

Features an extra-sharp point, razor-sharp flutes and a knurled aluminum handle with protective cap.

## Ultimate Flywheel Wrench (DTXR1105)

Safely and easily holds flywheel while tightening and loosening clutch nuts. Slotted to fit 2-, 3-, or 4-pin flywheels.

## Mini Hobby Knife (DTXR1152)

At only 3.25" long, the Mini Hobby Knife is ideal for working in tight spaces such as narrow sedan bodies, truck cabs and 1/10 scale buggy bodies. Great for trimming window mask and intricate decals.

## 7" Heavy-Duty Diagonal Cutter (DTXR0302)

Tackle heavy cutting jobs, including: 2-56 and 4-40 pushrods; 1/16" (1.5mm) and 1/8" (3mm) music wire; and 1/8" (3mm) braided cable!

## R/C Body Reamer (DTXR1155)

Perfect for making antenna and mounting holes — cuts from 0-15mm.

## Motor Station Parts Tray (DTXC2350)

Molded nylon stand with rubber feet holds your motor at any angle, leaving hands free to work.

## Standard Screwdrivers

All feature a full-sized, rubberized handle and chromed vanadium steel shaft with a hardened, magnetized tip.

DTXR0100 Slot 5 X 100mm  
DTXR0102 Slot 6 X 100mm  
DTXR0120 Phillips #0 X 75mm  
DTXR0122 Phillips #1 X 75mm  
DTXR0124 Phillips #2 X 100mm

## Pit-Tech™ Camber Gauge (DTXR1145)

Easily and accurately measures camber settings in one degree increments, from 10° positive to 10° negative.

## 6" Long Nose Pliers (DTXR0300)

Designed for fast, comfortable wire stripping and cutting, with serrated jaws and chromed alloy steel construction.

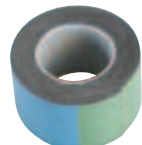

## Body Scissors (DTXR1150)

Curved, stainless steel blades cut through plastics without tearing.

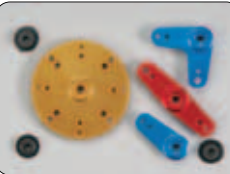

## Servo Tape (DTXR1215)

1" x 36".

# DuraTrax Tools & Accessories

# Recommended Accessories from DuraTrax

## Track Accessories

### Pit-Tech™ Deluxe Car Stands

Convenient workstation features a rotating upper plate with molded rubber insert grips for secure, easy access. Base includes an extra-large parts tray.

DTXC2370 Pit-Tech Deluxe Car Stand Blue  
DTXC2371 Pit-Tech Deluxe Car Stand Orange  
DTXC2372 Pit-Tech Deluxe Car Stand Purple  
DTXC2373 Pit-Tech Deluxe Car Stand Green

### Nylon Work Mat

DTXC2040  
Provides a durable surface for working on models at home, or at the track or field.  
Measures 24" x 38".

### Track Bags

Carry your DuraTrax vehicle in style with these handy Track Bags. Both are made of heavy-duty black nylon with red trim and feature detachable shoulder straps for easy transport. Deluxe features a water-resistant vinyl bottom and two extra zippered compartments.

DTXP2000 XL Track Bag  
DTXP2010 XL Deluxe Track Bag

## Apparel

### Hats

Feature a brushed cotton low crown with adjustable enclosures. One size fits all.

DTXZ5000 Khaki/Navy  
DTXZ5001 Charcoal/Black

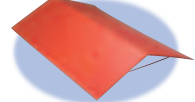

### T-Shirts

Made of pre-shrunk 100% cotton — white with racing stripe on front, DuraTrax logo on back.

DTXZ5011 Medium  
DTXZ5012 Large  
DTXZ5013 X-Large  
DTXZ5014 XX-Large

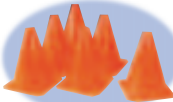

### Kwik Ramp™ Portable Jump (DTXC2375)

Portable jump with adjustable angle, made of impact-resistant, corrugated polymer.

### Kwik Trak™ Racing Cones (DTXC2377)

Set of six 7" cones.

### Kwik-Pit™ Nitro Belt Combo (DTXC2035)

Keep your most-used nitro tools within easy reach at all times! The durable nylon belt is adjustable, and features a quick-release buckle. Includes a 250cc Fuel Bottle, alkaline glow starter, engine tuning screwdriver, and Deluxe Car Wrench. Nitro Belt also available separately (DTXC2030).

### Racing Banner (DTXC25101)

4' banner is made of durable Tyvek™ material.

### Mini-Z™ and Micro 1/18 Carriers

Perfect for HPI Micro RS4s, or any Kyosho® Mini-Z vehicle — including F1s and Overlands. Bags feature 600D nylon construction, carrying handles, detachable shoulder straps, internal foam cushions for both car and transmitter and storage areas for spare batteries, parts and tires.

DTXP2025 Mini-Z Carrier DTXP2027 Micro 1/18 Carrier

### Transmitter Bag (DTXP2015)

Transports and stores most pistol grip radios, with removable foam panels to accommodate different size transmitters. Includes carrying handle and adjustable shoulder strap.

## Body Accessories

### WindowMask™ Window Masking Paper (DTXR1200)

Adhesive-backed masking film protects against bleeding and overspray (6" x 12.5" sheet).

### Body Repair Tape (DTXR1210)

Flexible, open-weave nylon mesh tape for repairing Lexan®, ABS plastic and wood.

### Body Posts

Flexible, dyeable, molded nylon posts feature adjustable collars for correct body height and include hardware.

DTXQ0423 3mm Nylon Lock (5)  
DTXQ0424 4mm Nylon Lock (5)

### Washers

DTXQ0501 2mm/2.6mm/3mm (30)  
DTXQ0503 4mm/5mm (20)

### Set Screws

DTXQ0301 3mm (12)  
DTXQ0303 3mm Long (12)  
DTXQ0305 4mm (12)  
DTXQ0307 5mm (9)  
DTXQ0309 5mm Long (6)

### E-Clips

DTXQ0521 1.5mm (10)  
DTXQ0522 2.0mm (10)  
DTXQ0523 2.5mm (10)  
DTXQ0524 3.0mm (10)  
DTXQ0525 4.0mm (10)  
DTXQ0526 5.0mm (10)  
DTXQ0527 6.0mm (10)  
DTXQ0528 7.0mm (6)  
DTXQ0529 10mm (6)

## Tires

### Street Trac Tires

Designed for high performance and durability on the street.

DTXC5240 2.2 Truck  
DTXC5260 T-Maxx/Savage  
DTXC5290 1/8 Buggy

### Pit-Tech™ Tire Glue

Specially formulated for rubber tires.  
DTXR2000 Thin  
DTXR2002 Medium

### Tire Sticks

Designed to keep tires organized.

## RealRace

Professional R/C Car Simulator

GENERATION 2

Drive today's hottest R/C vehicles...evaluate the effects of equipment changes...and get a large charge of pure driving "YEEEEEE-HAAA!", all from your Windows® computer and a single CD-ROM!

RealRace Generation 2 uses advanced physics, graphics and sound technologies to simulate driving R/C cars. You'll see full 3D motion. You set up your simulated model just like a real one, tweaking wheel alignment, shock preload, and over 120 other parameters! Features include:

- Easy-to-use pull-down menus for making adjustments "on the run";
- Enhanced graphics, such as adjustable exhaust and dust trails;
- Track customizing flexibility, and the ability to create original tracks;\*
- Fun Factor track options, such as ice patches, sudden ramps, a spinning "Lazy Susan" and more!

Each track includes several "live" computer-controlled opponents that you can test your skills against. They swerve to avoid collisions, crash, and have their own driving "personality" that you can adjust from passive to aggressive. You can also create and share your own computer-controlled opponents!

With its incredible technology giving your simulation remarkable accuracy, you can concentrate on the fun — and technique — of R/C car racing. Race against the clock to beat your own best times...compete against other RealRace drivers via the internet. Do it all with the included, genuine Futaba® pistol grip controller! For minimum system requirements, visit the RealRace web site at [www.realrace.com](http://www.realrace.com).

### Fifteen different vehicles including:

DuraTrax Axis  
Associated RC10GT Plus  
HPI Nitro MT  
DuraTrax Maximum BX  
DuraTrax Evader ST  
Tamiya Terra Crusher  
DuraTrax Maximum ST  
DuraTrax Nitro Quake

### Twelve different tracks!

Asphalt Challenge Oval  
Construction Site  
Gauntlet  
Parking Lot  
Dirt Bowl  
Big Jump  
Duneland II  
Pig Pen II

- Photo-realistic 3D terrain
- Track conditions directly affect car performance

### Multiple viewing options!

- Inside the car you drive
- Behind in a "chase" car
- Driver's Choice—anywhere on the track
- Above the action on a driver's stand

### More Action AND More Options!

### Create your own TOTALLY custom paint job!\*

\*Requires a bitmap editor compatible to edit .tga files, not included.
